Gina,

We have availability the last week of this month for all the property owners. Let us know what works for you if you would like to schedule everyone on 2 consecutive days.

Thank you,
Kimberly Barger

[Nonresponsive based on revised scope] hope all is well. I will be helping out with this site as Meg Broughton is no longer with our Region. She transferred to the Denver Office in November 2021.

I have a heads up from the resident at 17086 LP Bailey Highway that they are ready to schedule a date for their system maintenance. Can you give me a sense of when you might be able to perform this maintenance so I can work with the resident on an agreed-upon date?

I am confirming with Chris that she would like my support to set up appointments with the other four property owners as well.

Thanks so much for your help and please let me know if you have any questions.

Talk to you soon!
-Gina
